

Arms of
Baden-
Hochberg

```
graph TD; A((Arms of Baden-Hochberg)) --> B((Does the top quadrant without the lion have a dip?)); B -- YES --> C((A'.a.b. or A'.b.)); B -- NO --> D((A'.a.a.));
```

This flowchart starts with a black circle at the top labeled 'Arms of Baden-Hochberg'. A thick yellow line connects it to a central yellow circle containing the question 'Does the top quadrant without the lion have a dip?'. From this central circle, two yellow lines branch out. The left line, labeled 'YES', leads to a yellow circle containing 'A'.a.b. or A'.b.'. The right line, labeled 'NO', leads to a yellow circle containing 'A'.a.a.'.

Does the top
quadrant
without the
lion have a
dip?

YES

NO

A'.a.b. or
A'.b.

A'.a.a.
