

Arms of
Bristol

```
graph TD; A((Arms of Bristol)) --> B((Is the "Of" in the title at the top of the shield bisected by the chain line?)); B -- YES --> C((A.a.b)); B -- NO --> D((A.a.a));
```

This flowchart starts with a black circle at the top labeled "Arms of Bristol". A thick orange line connects it to a central orange circle. The central circle contains the question: "Is the 'Of' in the title at the top of the shield bisected by the chain line?". From this central circle, two orange lines branch out to two more orange circles at the bottom. The left branch is labeled "YES" and leads to a circle labeled "A.a.b". The right branch is labeled "NO" and leads to a circle labeled "A.a.a".

Is the "Of" in the title at the top of the shield bisected by the chain line?

YES

NO

A.a.b

A.a.a
